Bijnor, India

## EXPERIENCE

---

- **Tankar Company** [See]  
ReactJS Developer Intern - Gujarat  
Developed their product using ReactJS to enhance functionality and user experience. Worked with Developers to write code from scratch for their product. Created authentication and integration part with the rest APIs using axios.  
*October 2021 - December 2021*

## EDUCATION

---

- **Bachelor of Technology, Computer Science Engineering**  
Kunwar Satyavira College of Engineering and Management  
*Aug 2018 - Present[Expected: July 2022]*
- **Class XII - C.B.S.E**  
Modern Era Public School, Bijnor  
*April 2017 - March 2018*
- **Class X - C.B.S.E**  
Modern Era Public School, Bijnor  
*April 2015 - March 2016*

## COLLEGE PROJECT

---

- **Home Automation** [Soon]  
In this IOT based project, a user can control their electric appliance using a mobile app from anywhere. In this project I worked only on React Native and Firebase and other stuff handled by another members of group.
  1. A mobile app is designed using React Native.
  2. Communication is done using firebase between Raspberry Pi and Mobile App.

*React Native Firebase Python*

## SKILLS

---

- **Technologies**  
HTML, CSS, JavaScript, C/C++
- **Libraries and Frameworks**  
ReactJS, NodeJS, ExpressJS, React Native, Bootstrap, SCSS
- **Database**  
MongoDB, Firebase
- **Tool**  
Git GitHub
- **Others**  
Object Oriented Programming, Functional Programming, Data Structure

## PROJECTS

---

- **TenFlix** [See]  
The admin can only login the tenflix Admin Control and able to upload the content on Tenflix Database. And non admin users can login into the Tenflix and enjoy the content by watching them.  
*React.js(context-api) Node.js MongoDB JWT localStorage*
- **PinLoc** [See]  
the user can register yourself and then login in pinloc app and user entered data is stored in the database. And the login detail are stored in the local storage of the browser and the database. The user can pin the location and add details about that location and the pinned location data is store in database.  
*MERN*

## Certificates

---

- Full Stack Development Course: *Prutor@IITK IIT Kanpur Technology*  
[Certificate] [Internship] [Project]
